

Visa® Prepaid Corporate Incentive Cards

Motivate. Recognize. Reward.

Visa Prepaid corporate incentive cards can help maintain control over company gift giving, recognize and motivate good employees, and assist with customer retention strategies.

Visa Prepaid corporate incentive cards can be used as a thank you for a job well done, as an added incentive for staff to meet monthly or quarterly sales quotas, to motivate dealers and distributors to sell your product or service, or as a special giveaway to your best customers to reward their patronage and loyalty.

It is versatile, quick and convenient and makes gift giving or recognition simple and affordable - as they work with any number of recipients and any budget. Visa Prepaid corporate incentive cards are an ideal choice for your business and an offering most welcomed by employees.

Visa Prepaid corporate incentive cards can be used where ever Visa cards are accepted. Because it is a Prepaid card, spending is limited to the amount of money placed on the card by the purchaser. Each time the card is used, the purchase amount is automatically deducted from the card balance.

Visa Prepaid corporate incentive cards can also provide your business with a customized incentive solution, including the ability to feature your brand on the card. Check with the card-issuing financial institution to determine Prepaid card options.
